Quick Tips for Efficient Processing

Familiarizing yourself with National Life Group's New Business and Underwriting Department will inevitably make you a success with the company and help set realistic expectations with your client.

Our top priority and promise to you are to provide first-class service. With this in mind, we have developed this comprehensive field underwriting guide. Whether it is your first time sending an application or you are a seasoned agent, you will know ahead of time what you and your client can expect. We believe using this guide will help you get your business through faster and close the sale you worked so hard to earn!

Good field underwriting is essential to our partnership. Thorough field underwriting practices help to set expectations and make the process more efficient.

- Make sure your client gathers all information before the application is taken (i.e., Social Security numbers, addresses, medication information, driver's license, passport information, physician's name and contact information, date of last physician's visit, etc.).
- The information provided on the application is critical for consideration of life insurance coverage. Your responses must be complete and accurate to ensure the best coverage possible.

Submitting an Application

We are focused on helping you improve productivity. As part of our journey to Straight through Processing, we have eApp available through iPipeline. eApp is a dynamic interface that poses the questions the client needs to answer and alerts the agent to potential errors in the responses captured. Since the interface will guide agents through all the required questions, agents will no longer have to decide if a question is appropriate. eApp supports the submission of applications in Good Order. eApp integrates with our new business platform. Once you submit the application, the interface will send you a policy number.

Other Ways to Submit an Application

- Applications via eApp should use the secure upload on the [Agent Portal](#)
- Paper applications only can be submitted by:
 - Email: NBAApplicationImages@NationalLife.com
- U.S. Mail: National Life Group
Attention: New Business Department M300,
One National Life Drive
Montpelier, VT 05604

Choosing to submit an application using a method other than eApp can slow down the underwriting time due to inaccurate state paperwork being submitted, missing forms, and missing answers to questions. This could significantly impact the time it takes a file to get through new business and underwriting.

Completing an Application

- Agents should complete applications in the physical presence of the proposed insured (face to face or virtually)
- Agents should be fluent in their clients' native language. Agents should not use an interpreter to complete an application.
- Ask every question on the application. A life insurance policy is a legal and binding contract. We will uphold our promise to provide your client with the best possible solution based on their needs. The insurance application asks each question for a particular reason. It helps the underwriter to conduct a proper risk assessment and provides your client with the best offer with the information in hand. Please collect all information regarding your client's financial and medical history during the application process to ensure this assessment is accurate.

Did you know? *If a client does not provide their accurate financial and medical history upfront and it is later discovered to be material misrepresentation, the client could risk having their policy rescinded if approved and issued.*

Required Questions Commonly Missed on an Application

- Has the insured applied for life or disability insurance elsewhere?
- Will the client replace any life insurance coverage in force?
- Has the insured been convicted of a misdemeanor (including but not limited to DUI or disorderly conduct)?
- Name and address of personal physician or name of clinic client last visited and outcome of the visit

NLG requires adults ages 60 and over to have routine health care and a physical within the last 24 months. Otherwise, NLG will need to reject the file.

- Name and purpose of each current prescription medication
- Past and present medical conditions, date diagnosed, and treatment received
- Upcoming medical appointments, procedures, and follow-ups

By taking the extra necessary time with your client up-front during the underwriting process, you will experience faster turnaround times!

***Did you know?** By providing the client's past and current medical history, along with the date the condition was diagnosed, the treatment required, and the control of the condition, you can speed up the underwriting process by up to five (5) business days.*

Status Inquiries

You can check the status of all your pending business by following up on your cases through your [agent portal](#) under Book of Business: **New Business >> Pending New Business Outstanding Requirements**

***Did you know?** The agent portal will tell you if action is required on your part and what outstanding items New Business and Underwriting may need from you.*

Call the case manager assigned to the file. The agent web portal will also display this information. Your case manager can tell if New Business and Underwriting have received all the requirements, if anything remains outstanding, and the current status of the case.

Where to Send Outstanding Requirements

Agents should submit any questionnaires, exams, attending physician statements, cover letters, financial documents, EFT, 1035, and replacement or rewrite forms by using the [Agent Portal](#).

For paper applications, email:

NBRequirementImages@NationalLife.com.

Using this process will ensure the safe and timely processing of the requirement.

***Did you know?** As requirements come in, they are attached to the file automatically as they are received and date stamped. This reduces mistakes and allows for timely processing of the requirements. For applications submitted through eApp, use the [Agent Portal](#). For paper applications, email NBRequirementImages@NationalLife.com.*

Need to Speak with Someone in New Business or Underwriting Regarding Your File?

We want to hear from you and love talking to you. Please know, however, we are busy trying to review, approve, and issue your business! If your case manager or underwriter cannot pick up the phone, please leave a message. They will return your phone call within one (1) business day.

* The health questions on the application must be completed.

Want to Reduce the Number of Emails Between You and the Home Office?

Please read all communication sent from the home office to you. Please answer each question(s) in its entirety with one email for the most efficient processing. Avoid answering one question at a time. *Also, please remember to provide full details!*

Illustrations

Contact the Sales Desk for assistance with running illustrations at NLGSalesDesk@NationalLife.com.

States that have adopted the NAIC Illustration Regulation require a signed illustration or valid sales certification along with the application. Agents do not need to submit these requirements if a state hasn't adopted the NAIC Model Regulation and the regulations do not require a signed illustration. Agents are required to familiarize themselves with their state's regulations.

TotalSecure applications also require an illustration to be submitted with the application.

Policy Delivery

Once the agent receives the policy, unless otherwise directed, they should deliver it to the policy owner in person as soon as possible. A policy transmittal accompanies the policy, which outlines all delivery requirements and receipts needed to complete the sale. Return the requirements by:

- Uploading them to the [Agent Portal](#)
- Using the self-addressed envelope enclosed with the printed policy
- Emailing them to: FormsOnDelivery@NationalLife.com

Contestable Reviews & Rescissions

Policies generally become incontestable once they have been in force during the lifetime of the insured for a period of two (2) years from the issue date of a policy. Prior to that time, during a policy's contestable period, the Company reserves the right to perform a contestable review or investigation. This review may include obtaining additional medical and/or financial information regarding the insured and/or policy owner.

If it is determined that a material misrepresentation was made in the application for the policy, the policy may be rescinded. The policy and all attached riders are deemed null and void, according to applicable state laws and regulations, all premiums are refunded, and commissions are reversed. What constitutes a material misrepresentation is governed by state law, but it generally means that information was omitted or not presented at the time of application which would have changed the underwriting decision made at the time.

Examples of circumstances that may trigger a contestable review include:

- Third party information received after issue
- After issue requests that require new underwriting evidence
- Claims that occur during the 2-year contestable period

Agent Commissions and Contracting

- LSW and National Life commissions are generated weekly. Please see the website www.NationalLife.com for a Life commission cutoff schedule
- Please note that Pennsylvania requires us to appoint you in their state before solicitation

Visit the [Agent Portal](#) or the NLG Mobile App for commission, contracting, website, or forms-related items.

When Medical Testing is Required

Depending on the product, issue age, face amount, and medical history, the policy may require complete testing (paramedical exam, blood specimen, urinalysis specimen, and electrocardiograms). The medical exam is made part of the policy and can be used during a contestable review.

An agent should not order medical testing without authorization from a home office underwriter if it is not an age and amount requirement. Doing so could result in the agent being charged for the expense incurred.

Testing should not be ordered until the applicant has completed an application, and has signed the authorization, HIPAA, and HIV consent form. Having the client complete the testing ahead of time is against state insurance regulations. The state in which the contract is signed in can impose significant fines to the insurer. This could result in extra expense being charged to your client in the form of premium increases. If the testing is ordered without the client signing any of the above, please know you may be liable for the charges incurred that we did not specifically ask for.

When a paramedical exam is required, please guide your client about the process and help to set realistic expectations.

The medical examiner must be fluent in the client's language, or the paramedical company must provide an interpreter. Examiners cannot use a family member or anyone benefiting from the policy as a translator.

The client should do the following:

- Bring a photo ID such as a driver's license
- Fast for at least 12 hours
- Avoid strenuous exercise for at least 12 hours prior to the exam
- Bring a list of all medications

Did you know all life insurance contracts have a 2-year contestability period? The company has the right to contest a claim if that claim is submitted within the first two years of the contract of the issue date of coverage. This helps the insurance company to protect itself against individuals who may have intended to be misleading by providing inaccurate information to obtain an approval.

Did you know?

- An application is good for 6 months
 - A Statement of Health (**form 5230**) will be required after 90 days of the date of last evidence (exam or health section of application)
- Parameds and Labs are good for:
 - Ages up to 70: 12 months
 - Ages 70 and up: 6 months
- Rewrites: A policy can be rewritten up to 120 days from the date of application

Approved Paramed Vendors

Depending on the product, issue age, rate class, face amount, and medical history, Underwriting may require complete testing. Please review the Life Underwriting Requirements in this guide. The paramedical company will contact the prospective client to set up an appointment. Agents must use one of the following companies if full testing is needed; reference LSW/ National Life when making contact:

- APPS-Portamedic
 - www.appslive.com | 800-727-2101
- Exam One
 - www.examone.com | 877-933-9261

If a translator is needed for your client, make sure to indicate it on the Agent's Report.

Occasionally, medical records from the proposed insured's physician may be needed due to the face amount applied for or because of the client's medical history. National Life Group uses Parameds.com to retrieve those records.

– www.parameds.com | 800-872-3674

Attending Physician Statements can range from 10-2,000 pages. Please allow up to 5 business days for underwriting to review.

Laboratory Testing Services

Clinical Reference Lab is the approved testing service for blood profiles and urinalyses. Use of our approved lab helps ensure the timely transmission of test results. A urinalysis is required whenever blood testing is needed. Please refer to the product-specific charts in this guide for additional information. HIV consent forms must be submitted in those states where required for all proposed insureds that require laboratory testing. Completion of these forms is the agent's responsibility.

Did you know that the [Agent Portal](#) can provide Underwriting Guidance?

Click on the link to navigate to Underwriting Guidance.

Medical Testing Protocol

Medical Testing Orders

National Life Group does not authorize ordering or completing medical testing, such as paramedical exam or laboratory tests (blood/urine), until after the proposed insured has completed and signed NL or LSW application forms, including an authorization and appropriate HIPAA form.

Certain products may not require initial routine medical testing. Please refer to the product-specific charts for more information. We reserve the right to request medical testing for cause (such as diabetes, morbid obesity, etc.) National Life Group will request age-appropriate medicals anytime the amount of the NL/ LSW exceeds the maximum non-fluid coverage amount.

Existing coverage with National Life will impact the needed requirements. Please consult with your underwriter.

Release of Medical Testing

Our standard protocol is for the paramedical service providers to send the exam, EKG, senior assessment, and lab slip along with the specimens to the lab for timely processing when medical testing is required. The Home Office will receive testing results, and any policy issued will include a copy of the paramedical exam. If an agent or firm is brokering the business and wants to receive a copy of the exam, they may want to order the medical testing using their own account.

Requests for Lab Results to be Sent to a Client

Lab results can be received in one of two ways:

- The Paramed Examiner will provide a slip with information and code to retrieve it directly from the lab
- Submit a [Form 7935](#) Release for Medical Information signed by the client and forwarded to the Home Office. Lab results will be sent via U.S. Postal Service to the client's address on record within five (5) business days of receipt of the information.

Medical Testing Completed by Other Companies

We will consider using another carrier's paramedical exam, EKG, and/or lab results completed within the last 12 months through age 69, and within the last six months for ages 70 and above, if copies are made available to us. We reserve the right to request current testing at older ages, for large face amounts, and at the underwriter's discretion.

Attending Physician Statement (APS)

An APS (copy of the client's medical records) may be required by the underwriter in order to complete the underwriting process. Obtaining these records can take 2-6 weeks, depending on the physician. The application should include the complete information (full name, address, phone number) for the personal physician as well as for all other physicians and specialists seen.

The Home Office will order medical records, unless otherwise noted, through Parameds.com.

Attending Physician Statement (APS) Guidelines

Medical records should not be ordered unless requested by the underwriter after initial review of the application. Because it can be cost prohibitive to order multiple APSs on smaller face amounts, all applications should be submitted using Medical Questionnaires whenever possible. You should also consult the listing of **Uninsurable & Problematic Risks** in this guide before completing an application on a prospective client with complex medical issues.

The underwriter will make every effort to use the application, medical questionnaires, prescription database, and other tools to assess the risk while considering the total amount of the insurance applied for.

Routine (APS) Guidelines

Ages 0 – 17	\$1,000,001 and up
Ages 18 – 40	\$5,000,001 and up
Ages 41 – 60	\$2,000,001 and up
Ages 61 – 69	\$1,000,001 and up
Ages 70 & up	All face amounts

Certain medical impairments may require an APS regardless of face amount. These may include, but are not limited to:

- Alcohol/Drug Abuse and/or treatment
- Cardiovascular or Coronary Artery Disease
- Cancer
- Diabetes treated by insulin/with tobacco use
- Emphysema, COPD, Chronic Bronchitis
- Heart Murmur
- Hepatitis
- Kidney/Renal Disease
- Lupus
- Mental Disorders requiring multiple or psychotropic medications
- Multiple Sclerosis
- Peripheral Vascular Disease
- Stroke, TIA, CVA, Cerebral Hemorrhage
- Ulcerative Colitis/Crohn's Disease
- Opioid/Narcotic/Chronic Pain Medication
- History of incarceration
- PTSD
- Multiple chronic medical conditions
- Emergency room visit or hospitalization in the last 6 months

Requests for medical records may also be at the underwriter's discretion due to third party information, abnormal lab findings, etc., as well as because of larger face amounts and older ages.

Motor Vehicle Report

(Ordered by Home Office)

Motor Vehicle Reports are ordered on all applicants ages 16 and up, all face amounts.

Underwriting Programs

Full Medical/Financial Underwriting

National Life Group has a wide range of products that are underwritten using traditional underwriting requirements such as blood profile, urinalysis specimen, paramedical exam, and EKGs. Applications requiring full medical underwriting to properly assess the mortality risk the client represents are often on larger face amounts and older age applicants. Please refer to www.NationalLife.com for the most current listing of these products.

What does the agent need to know?

NLG will review the application containing your client's financial and medical information. The information will be cross-referenced with several databases used for the risk assessment such as:

- Medical Information Bureau (MIB)
- Milliman Intelliscript® Prescription Data, Medical Claims Data, and Criminal History Data
- Motor Vehicle Report
- Electronic Inspection Report
- LabPiQture, providing clinical laboratory results
- Clinical Reference Laboratory Prescription Database

What medical requirements might be requested for my client to complete?

- Blood profile and urinalysis specimen
- Paramedical exam
- Senior Assessment
- EKG
- Attending Physician Statement

Are there other requirements that I may need to have my client furnish?

Depending on the type of and purpose of the life insurance sale, the underwriter may request additional financial information to justify the face amount being requested. This information we request, may be in the form of:

- Personal Financial Questionnaire
- 2-year tax returns, W-2s, or 1099s
- Third Party Verified Financial Statements prepared by CPA or Tax Attorney
- Cover letter explaining the purpose of sale and how the total line of coverage was determined

Do you know how powerful a cover letter can be?

If you have a client who is applying for insurance for reasons other than straight income replacement needs, it is best to submit a cover letter. The cover letter will tell the underwriter how the sale was made, the purpose of the sale, and the intended use of the funds and/or riders. A well-crafted cover letter helps the underwriter better understand your client's needs. If you submit an application via eApp, you can type this information in the cover letter.

Accelerated Underwriting Products (EZ Underwriting)

National Life Group is pleased to offer accelerated underwriting to applicants. This means your client may be eligible for our best class without the need to complete medical requirements (blood profile, urinalysis, paramedical exam, and EKG).

EZ underwriting is available to applicants ages 18-50 applying for face amounts up to and including \$3,000,000 on permanent products (\$2,000,000 on term products); to applicants ages 51-60 applying for face amounts up to and including \$1,000,000; and to applicants ages 61-65 applying for face amounts up to and including \$250,000.

Existing coverage with National Life Group will impact the needed requirements. Please consult with your underwriter.

Please consult the product's age and face amount grid for current guidelines. (See NLG's website for current listing).

Applicants Applying for the Following Face Amounts:

	Ages 18-50	Ages 51-60	Ages 61-65
FlexLife	Up to \$3M	Up to \$1M	Up to \$250,000
SummitLife	Up to \$3M	\$1M	n/a
PeakLife NL	Up to \$3M	\$1M	n/a
Term	Up to \$2M	Up to \$1M	Up to \$250,000
TotalSecure	Up to \$3M	Up to \$1M	Up to \$250,000
BasicSecure	Up to \$3M	Up to \$1M	Up to \$250,000

What does the agent need to know?

NLG will review your client's financial and medical information contained in the application, cross-referencing the information with several risk assessment databases such as:

- Medical Information Bureau (MIB)
- Milliman Intelliscript® Prescription Data, Medical Claims Data, and Criminal History Data
- LabPiQture, providing clinical laboratory results
- Motor Vehicle Report

Underwriting Rate Classes Explained

Elite Preferred Non-Tobacco

See guidelines on next pages.

Preferred Non-Tobacco

See guidelines on next pages.

Select Non-Tobacco

Offered for those clients who do not meet all criteria for preferred but meet the special standard “plus” criteria for this well-priced non-tobacco/non-nicotine class.

Standard Non-Tobacco

Offers competitive rates for applicants who are standard risk and have not used tobacco or nicotine products within the past 12 months. If additional table ratings are applicable, use this rate class as the platform for non-tobacco class illustrations with ratings.

Express Standard Non-Tobacco 1

Available to applicants who do not use products containing tobacco or nicotine that qualify with rating of four tables or less who would otherwise be substandard. Limited availability by product.

Table Ratings converted to Percent Ratings

Table 2	Table B	150%
Table 3	Table C	175%
Table 4	Table D	200%
Table 5	Table E	225%
Table 6	Table F	250%
Table 8	Table G	300%
Table 10	Table H	350%
Table 12	Table I	400%
Table 16	Table J	500%

Ratings are illustrated using Standard or Verified Standard class as the platform for Non-Smoker clients or using Standard Tobacco class as the platform for tobacco users. Some products may show Standard Tobacco vs. Standard Smoker. Please refer to product guides for specific rate classes available.

Express Standard Non-Tobacco 2

Available to applicants who do not use products containing tobacco or nicotine that qualify with rating of 225% to 300%. Living Benefits and Lifetime Income Benefit Riders are not available. Limited availability by product.

Preferred Tobacco

Available to applicants who use products containing tobacco or nicotine but meet all the other preferred guidelines (see following pages).

Standard Tobacco

Applicants who use tobacco or nicotine products that do not otherwise meet the preferred guidelines will use this rate class. If additional table ratings are applicable, use this rate class as the platform for tobacco class illustrations with ratings.

Express Standard Tobacco

Available to tobacco users that rate four tables or less. Limited availability by product.

Tobacco Use Includes

Betel Nut	Cigarettes
Chewing Tobacco	Cigars
E-Cigarettes	Hookah
Nicotine Gum	Nicotine Patch
Pipe	Vaping

Individual consideration will be given for low BMIs. Please use the Underwriting Quote Tool XRAE ([Instructional PDF: Getting Started with the XRAE Field Underwriting Tool](#)).

Table of Height and Weight, Ages 18 and Older (Term Products)

This chart is used as a guideline to identify the weights that are usually acceptable within the rate classes shown, and to show the acceptable weight to qualify for the disability income rider. Other factors, including age or disproportion in body measurements (girth of chest and abdomen), may impact the final decision.

Rate Class	Elite	Preferred	Select	Standard	Express Standard 1	Express Standard 2
BMI	≥18.5 to <24.9	≥24.9 to <27.1	≥27.1 to < 29.9	≥29.9 to <37.5	≥37.5 to <42.5	≥42.5 to <46.5
Height	Weight (lbs.)

Individual consideration will be given for low BMIs. Please use the Underwriting Quote Tool XRAE ([Instructional PDF: Getting Started with the XRAE Field Underwriting Tool](#)).

Uninsurable and Problematic Risks

Applications should not be written on persons with the following impairments/issues. This list is not intended to be all-inclusive. If your applicant has a serious condition not listed here, please contact your Underwriting Team for a tentative quote.

Ages 60 and over must have routine health care and a physical within 24 months. We will otherwise need to decline.

If **declined by another carrier** within the last year, please use the Underwriting Quote Tool XRAE ([Instructional PDF: Getting Started with the XRAE Field Underwriting Tool](#)).

- Abdominal Aortic Aneurysm, present or surgically corrected within the past six months
- Alcohol treatment within the last two years
- Angioplasty/Bypass or MI/Heart Attack in the last six months; or in combination with history of diabetes, stroke and/or continued tobacco use
- Alzheimer's disease, Dementia, or Cognitive Impairment
- Autism
- Bankruptcy, Chapter 7, that has not been discharged
- Cancer treatment, current; or certain internal organ cancers diagnosed within the past three to five years – contact underwriter with specific details
- Chronic Opioid/Narcotic use
- Cirrhosis of Liver
- COPD/Emphysema, severe (on oxygen or disabling) or with current tobacco use
- CVA (stroke) within one year; or with history of diabetes or cardiac history
- Diabetes if uncontrolled (glycohemoglobin A1C 10.0 and above) or if complications present (amputation, retinopathy, kidney, or vascular disease) or in combination with cardiac, stroke, or morbid obesity. Juvenile onset diabetes (diagnosed prior to age 20)
- Disabled for most non-musculoskeletal related impairments (i.e., on SSDI or DI due to depression, PTSD, or other medical issues.)
- Down Syndrome
- Driver's license currently suspended or revoked
- Drug use within the last three years
- Single DUI in the last year or multiple DUIs with any occurring within the last 5 years
- **Low BMI when an infant**
- **Low BMI when age 60 and over**
- Epilepsy/Seizures diagnosed within one year
- History of being charged with a felony. History of being charged with a misdemeanor and not released from probation or parole for one full year
- Gastric Bypass within six months
- Heart Surgery within six months or in combination with Diabetes or Stroke history
- Heart Valve Surgery within one year
- IOLI / SOLI – Investor Owned or Stranger Owned Life Insurance
- Kidney Dialysis or Chronic Renal Failure
- Mental Disorder/PTSD requiring hospitalization or disability in last year
- Multiple Sclerosis, if disabling or progressive
- Organ Transplant, awaiting or recipient
- Parkinson's Disease if disabling
- Parole or Probation (see Felony or Misdemeanor)
- Polycystic Kidney Disease
- Pregnancy with current gestational diabetes, toxemia, eclampsia, pre-eclampsia. Would reconsider at six weeks post-partum.
- Surgery (major) pending
- Suicide attempt in last year; or more than one attempt within two years
- Valve replacement within year

Financial Underwriting

Financial Underwriting is the evaluation of the proposed insured's personal and business financial background. During the analysis we need to confirm that the need for insurance in force with our company and other carriers as well as applied for is reasonable and in line with the insured's needs. It is the underwriter's responsibility to make sure the policy will be affordable in order to sustain premium payments. It is necessary to establish the insurable interest of the beneficiary in the life of the prospective insured at the time of underwriting, and the financial loss that will occur in the event of an unexpected and untimely death of that insured.

While life insurance has other specialty uses such as cash value accumulation, the primary purpose of life insurance is to protect against a loss and the death benefit cannot exceed the client's economic ("human life") value.

The writing agent is an important source of information. Through a cover letter, he/she can provide an explanation of the purpose, need, and method used to establish the requested face amount and total line of coverage, as well as any unusual aspects of the case and competitive situations. Copies of the needs analysis and financial statement should accompany applications with large face amounts.

New York Financial Suitability Review

Effective February 1, 2020, all New York contracts are subject to enhanced suitability review per Regulation 187. In order to perform this additional level of suitability review, we will require that the Confidential Financial Questionnaire ([form 1392](#)) be completed on all NY applications. To avoid delays, submit this questionnaire with all applications.

Personal Insurance; replacement of income:

Age	Factor Time Income
18-30	40x annual earned income
31-40	35x annual earned income
41-50	25x annual earned income
51-60	15x annual earned income
61-65	10x annual earned income
66-69	5x annual earned income

Earned income is money received from paid work. It is not income from investments, rental property, alimony, savings accounts etc. Underwriters take into the consideration earned income only.

Juvenile coverage for children ages 0-17:

National Life will consider permanent coverage on a juvenile **up to a face amount of \$250,000**, regardless of the amount of coverage in force (and/or applied for) on parents or siblings.

For requested coverage amounts that result in a total line of insurance coverage from **\$250,001 to \$1,000,000**, National Life can consider up to the amount of insurance in force on the breadwinning parent (non-breadwinning parent should also be adequately insured). Siblings need to have like coverage (equal face amount or premium contribution).

For requested coverage amounts that result in a total line of insurance coverage from **\$1,000,001 to \$3,000,000**, National Life can consider amounts up to 50% of insurance in force on the breadwinning parent (non-breadwinning parent should be adequately insured). Siblings need to have like coverage (equal face amount or premium contribution). **Please note:** Proof of in-force coverage on the breadwinning parent may be requested at underwriter's discretion.

The maximum total line of insurance to be considered on a juvenile is \$3,000,000. For total line requests greater than \$3,000,000, sufficient financial/estate planning needs to be in place and documentation of the planning will need to be shared with underwriting. **Please note:** Proof of in-force coverage on the breadwinning parent may be requested at underwriter's discretion.

For all juvenile coverage:

- Child must be at least 14 days old and be U.S. citizen or permanent resident.
- Acceptable ownership will be parents/legal guardians or grandparents only (guardianship paperwork will be necessary).

New York contracts have special rules that must be followed on juveniles up to age 14.

- **For ages 0-4**, it's the maximum of 25% of the inforce coverage on the life of the parent who is applying.
- **For ages 5-14**, it's the maximum of 50% of the inforce coverage on the life of the parent who is applying.
- **If parents are joint owners**, the 25% or 50% is based on the parent with the greater coverage.

These limits do not apply if a grandparent is purchasing the coverage on the child and the child is not dependent on that grandparent for support. In this situation we are able to follow our normal juvenile guidelines.

If you have a family applying for life insurance, it is important that the total premium does not exceed 10% of the client's annual income. If it does, the underwriter will reserve the right to ask for additional financial documentation.

Other Personal Insurance

For larger face amounts requested, it is the agent's responsibility to inform the client that the purchase of a life insurance policy is a binding financial contract that requires disclosure of personal and/or business financial information. Depending on the insurance need, specific concrete forms of financial verification or attestation(s) may be required. Below are National Life Group's Financial Underwriting Requirements:

Requirements/Documentation	Age Range (if applicable)	Face Amount/Coverage Amount
Confidential Financial Questionnaire (form 1392)*	All Ages	\$5,000,001 and up
Income Verification (2 years of tax returns, W-2s and/or 1099s)	All Ages	At Underwriter's Request or \$10,000,001 and up
Electronic Inspection Report	All Ages	\$2,000,001 and up
Third Party Verified Financial Statement (Prepared by CPA or Tax Attorney)	18-69	\$10,000,001 and up
Third Party Verified Financial Statement (Prepared by CPA or Tax Attorney)	70+	\$5,000,001 and up

* All NY applications must include this form at all face amounts.

These are general guidelines. We reserve the right to request financial requirements at the underwriter's discretion. See Business Insurance Guidelines for additional underwriting requirements that may be requested

Personal Insurance

Estate Protection/ Estate Planning	Purpose of insurance: Life insurance coverage to protect the assets from sale for estate tax purposes. The personal net worth of an individual or family is used as the basis for a calculation of an approximate estate tax liability and related expenses. The underwriter will consider the nature of the assets and how their value has changed over time at a reasonable rate of growth, compounded up to 10 to 20 years depending on the clients' ages and risk class and offset by expected interest rate.
Final Expense Coverage	National Life Group does not offer a stand-alone final expense or burial coverage. (With appropriate financial justification to a maximum up to \$100,000 may be considered with final expenses being considered as part of the overall need for coverage.)
Coverage on Older-Age Applicants & Dependent Parents	Purpose of insurance: Personal insurance on older-age applicants may be needed for estate tax situations (see estate planning) or asset repositioning. Final expenses may be considered in the overall need for coverage. Income replacement is not applicable at ages 70+. Retirement income: Cash value may be used for retirement income. However, the death benefit must be financially justifiable. Coverage on dependent parents: A limited amount of coverage may be considered on dependent parents if a financial loss is demonstrated – what is the quantifiable financial loss that the family must replace? • If services provided to the family by the dependent parent would require significant expense to replace, how was that amount determined? • The head of household (adult child of dependent parent) must have sufficient life insurance coverage in force at an amount greater than being applied for one parent. • The head of household's income must be sufficient to support the family finances and total line of coverage for household members. • Coverage cannot be used to create an estate at death. With appropriate financial justification a maximum up to \$100,000 (total with all carriers) may be considered. However, if no financial justification is demonstrated no coverage will be issued. Premium to income ratio In order to sustain long term premium payments, generally households with modest annual income should not exceed 10% of income for life insurance premiums. Households with greater annual income may put a larger percentage of their income in their policies; this will be considered on an individual basis.
State & Federal Assistance Recipients	Individuals whose primary source of income is state or federal aid programs, Supplemental Security Income (SSI), or Social Security Disability Income (SSDI) generally have a minimal need for life insurance other than a nominal final expense policy. If this is their only source of income, we would not offer coverage.

Non-Working Spouse Coverage	If the working spouse has inforce/pending coverage, we can match their coverage up to \$1,000,000. Any amount greater than \$1,000,000 will require financial justification. If the working spouse is uninsurable, we would allow the non-working spouse coverage in line with earned household annual income.
Charitable Coverage	Personal life insurance needs should be met before consideration of charitable giving. The amount of coverage to be considered will be based on the established history of annual giving and income replacement factor. Large face amounts will require a copy of past tax returns showing charitable gifting history. A cover letter should be provided explaining the relationship between the applicant and the charity and confirm that the client understands that the coverage will be included in ultimate total line limits.
Asset Repositioning	Any assets or income being repositioned into life insurance to enhance or leverage a legacy for wealth transfer purposes should not cause future financial hardship for the client and family. Must qualify for death benefit using financial guidelines above.
Creditor (Personal)	A copy of the loan document should be submitted with the agent's cover letter outlining details of loan terms and status of loan. Personal home mortgages will be considered up to 100%; other personal loans up to 75% of loan amount. Use of collateral assignment for outstanding loan amount to lender is recommended.
IOLI/STOLI (Investor Owned Life Insurance/ Stranger Owned Life Insurance)	It is the policy of National Life Group not to support any form of Investor Owned Life Insurance (IOLI), including "non-recourse premium financing", Stranger Owned Life Insurance (STOLI), or Charity Owned Life Insurance (CHOLI), where the intention of the proposed owner at the time of sale is to sell the policy to an investor, group of investors, life settlement company, or charity. Applications for life insurance that involve such arrangements should not be submitted.
Bankruptcy	There are different types of bankruptcy filings but the most common are Chapters 7, 11, and 13. From an underwriting perspective, they can be viewed differently. We will not offer coverage to an individual with a history of Chapter 7 bankruptcy until the bankruptcy proceedings have been discharged, and the client is working full time and demonstrates a financial need for a reasonable amount of coverage. We will consider coverage for applicants currently in Chapter 11 or 13 once the applicant is making regular debt payments and they are not subject to any court-imposed restrictions. All applicants will be underwritten on their own merit, taking into consideration stable employment, annual income, net worth, purpose, and need for coverage, as well as any medical concerns.

Business Insurance

Insurance is frequently used to protect against financial loss in a business relationship. The most common are Key Person, Buy/Sell, and Deferred Compensation. The amount of death benefit must be suitable for the given business financial situation. Each business sale should include a detailed cover letter and Business Insurance Worksheet (form 20098). If the contract is employer owned, the Insured Notification and Consent Form (form 8453) must be filled out and submitted prior to issue.

Key Person	Individuals who make significant contributions to the profitability of a business and cannot readily be replaced may be considered Key Persons. Generally, a multiple of annual salary, such as five (5) times income, would be considered – 10 times for well-established businesses. Stock options, bonuses, and certain benefits, such as housing and automobile allowances, will also be factored into compensation.
Buy-Sell Cross Purchase/ Stock Redemption	All owners should be proportionately insured based on their established business interest and the fair market value outlined in the buy-sell agreement. If there is no buy-sell agreement, a cover letter is needed with details on how fair market value was determined. In addition, the last two years of income statements and balance sheet information is needed – or a third party business valuation.
Deferred Compensation	Deferred compensation can be divided into two broad categories: qualified plans and non-qualified plans. Qualified plans allow the employer to take a tax deduction (as a normal business expense) when contributions are made to the plan. These contributions are made on a before-tax basis and the employee is not subject to income taxes at the time of the contribution, but is instead allowed to defer taxes until benefits are distributed from the plan. Non-qualified plans do not receive this tax savings: the employer cannot take a deduction for contributions and the employee must pay income taxes on contributions in the year in which they are made. Because a key benefit of this concept is that the cash value buildup of the policy grows income tax deferred and can potentially be accessed using policy loans or withdrawals* as a supplement to retirement benefits, a product with a lower face amount and maximum funding best meets the deferred compensation concept. The Underwriter will require salaries, benefit being refunded, and amount of insurance being applied for. Long term financial outlook of the business is also a financial consideration.
Loan Protection/Creditor (Business)	A maximum of 75% of the outstanding loan amount will be considered. Complete details regarding the purpose and terms of the loan must be provided. Collateral assignment of the death benefit for the loan balance should be used.
Executive Bonus	Employers may offer an executive bonus plan to provide additional incentives by paying life insurance premiums for the executive employee's personally owned policy. The amount may be defined in a deferred compensation agreement and should be justified by personal insurance needs. A copy of any deferred compensation agreement should be submitted as well as documentation of salary (including bonuses) for past two years.

* Policy loans and withdrawals reduce the policy's cash value and death benefit and may result in a taxable event. Surrender charges may reduce the policy's cash value in early years.

Advanced Marketing

National Life Group's Advanced Sales is here to help you work more effectively in the advanced markets space. If you have questions about business insurance needs, qualified plans, executive benefit plans, or premium finance cases, we can help!

With more than 180 years of combined industry experience our Advanced Sales Team is here to help you grow your business.

We specialize in working with high net worth individuals, business owners, and their families along with charitable and non-profit organizations.

We provide your team with:

- Direct access to our in-house team for case consultation and point-of-sale support
- Simplified sales concepts to help you sell
- Case design and presentation
- Consultation with strategic advisors – CPAs and attorneys
- Ongoing education and training

We are committed to supporting your needs and the needs of your clients. We stay current in the market and understand what people are thinking from Main Street to Wall Street. At the end of the day, our job is to simplify the sales process and make doing business with us easy.

Here are some of the programs the Advanced Sales Team can help you with!

Insurance Basics

The Life Insurance Application

Once executed and signed by all parties involved, life insurance applications are a legal and binding document between the applicant, the owner, and the company. The insurance company agrees to pay for the claim if something were to happen to the proposed insured, provided the applicant answered all questions on the application truthfully and all underwriting requirements are completed. Therefore, it's important to take care when filling out the application. Not taking the time to ensure that the insurance company has the most relevant information about the insured will delay the application in the underwriting process, and will result in a less than favorable pricing, or could cause the insured's policy to be rescinded due to material misrepresentation.

Two-Year Contestability Period

If an insured passes away or if a claim is submitted within the first two years of the coverage being in effect, the insurance company has a right to contest or question the claim. If the applicant provides inaccurate information on the application in order to receive an offer for coverage or to get better rates, this is misrepresentation and could result in the denial of the benefit or claim.

Rescission

The revocation or cancellation of an insurance contract due to material misrepresentation. All premiums paid into the contract plus interest will be refunded to the insured. The policy will be cancelled. A rescission results in the agent receiving a chargeback on commissions.

Third Party Medical Evidence

Additional databases are used to find medical information when available, such as lab results, routine health care, and physician information.

Medical Information Bureau

The Medical Information Bureau (MIB) is a non-profit company owned by members that helps prevent insurance fraud. It is an essential underwriting tool that our company uses for every life application we receive. If an applicant omits pertinent information about their health, financial, or avocation history on the application, MIB will alert the insurance company of the errors and omissions who will then investigate. Preventing fraud helps drive down the cost of life and health insurance. The underwriter can never make an adverse decision based on MIB information. The MIB information is FCRA regulated.

Prescription Data Base Report

This report is an electronic query of an individual's past and current prescription history provided in real time, quickly identifying the number of prescriptions prescribed by a provider, the name of the provider, and the address.

Did you know the prescription database captures prescription fills going back seven years? So be sure to not only ask your client about what medications they are currently taking, but also what medications they've taken in the past.

Rewrite

The process of making a change to a contract that has been issued within 120 days of the later of the application.

Nexus

Applications executed in states other than the Owner or Insured's residence state.

When an application is executed in a state other than the state of residence of the Owner or Insured, we require that there be an acceptable connection (nexus) between the state of execution and the residence state of the Owner/Insured.

Acceptable Scenarios

Many state insurance departments are sensitive to business written on their residents in other states, so it is critical that the connection is clearly stated when an application with a nexus situation is submitted.

- The Insured/Owner owns real estate or another residence in that state
- The company that the Insured/Owner works for is based in that state
- The Insured/Owner owns a company based in that state
- The Owner is a trust governed by the laws of the state where the application is to be completed

Exception

An exception to this rule would be if the Insured/Owner was a relative of the agent. Relatives would only include immediate family members such as spouse, parent, sibling, or child.

Agent Licensing

All of the scenarios noted above are subject to the appropriate agent licensing in both states. Some states require the agent(s) to be licensed in both the insured and proposed owner's resident state and the state of execution.

Product Availability

All of the scenarios noted above are subject to the product availability in both states. Also, if the state of execution is a border state to the insured's or proposed owner's residence state and the residence state has either disapproved the policy form or approved a materially different policy form, the residence state insurance department may require the sale to be canceled and/or require it to be changed to the policy form approved by the residence state.

Application Forms

When writing an application that has met the nexus guidelines and is executed in a state other than the residence state, the application forms used must be the approved forms for the state of execution.

State of Execution Certification

Form 9928 must be completed when a life insurance or annuity application is completed and signed in a state other than the state of residence of the insured or proposed Owner. This form is available on the Company website.

Insurable Interest – Owner/Beneficiary

Insurance law and public policy in the various states require that we establish an **Insurable Interest between the Proposed Insured and the Owner/Beneficiary** exists at the time we issue a life insurance policy. The strictest definition of insurable interest suggests that the Owner/Beneficiary must suffer a **quantifiable financial loss** at the Insured's death. In other words, the Owner/Beneficiary must be better off if the Insured lives rather than dies.

Because the Owner controls several aspects of the policy, such as the right to change the beneficiary, change the face amount or riders, or cancel the policy, the insurance company is charged with assuring there is insurable interest of the owner for any policy issued.

The simplest, most common relationship we insure is that between spouses. Survivor income, debt repayment, tuition costs, and final expenses are all quantifiable needs that become readily apparent at death in this situation and are perfectly appropriate purposes for life insurance. Loan repayment in debtor relationships, key-person and buy-sell agreements in business relationships, and estate protection are other fairly quantifiable needs that can be supported by life insurance.

The law also makes allowance for the bonds of love and affection that exist between spouses (or “significant others”), when parents insure minor children, and when grandparents insure grandchildren (with parental approval).

The relationships between cousins, nieces/nephews, and aunts/uncles are more difficult to insure because the financial and emotional ties are hard to identify and quantify.

Except when spouses insure each other or when parents insure minor children, it is the Agent's responsibility to carefully describe the insurable interest supporting any application where the Owner is someone other than the Proposed Insured and if the relationship of the Owner to the Beneficiary is questionable. It's important that the explanation include the **financial loss incurred** at the Proposed Insured's death.

The owner and beneficiaries on their contract often change over the life of the policy.

Generally accepted ownership arrangements include Insured, Spouse, Parent of Minor Child, Grandparent, Business Partner, Business/Corporation Owned by the Insured, and Trusts.

When a minor becomes owner, by reason of the death of the current owner, a court-appointed legal guardian is required to act on behalf of the child for all dealings with the policy. Additionally, most transactions would require a court order authorizing action requested by the legal guardian.

You can avoid this situation by including a contingent owner on the policy.

To add a contingent owner now, email the following information to TitleDepartment@nationallife.com, and the application will be amended before issue:

- Name
- Date of birth
- Social Security number
- Relationship to the insured

To add a contingent owner after a policy is issued, please complete a **1492 Ownership Change form** and email it to TitleDepartment@nationallife.com.

Underwriting Quotes

Introduction

Certain medical or non-medical impairments may require “pre-qualifying” a proposed client for insurance coverage. The Underwriting Quick Quote process will now be handled through the XRAE “Express Risk Assessment Exchange” management tool. This will allow for instantaneous assessments by evaluating a client’s medical conditions against proprietary underwriting rules.

All quotes are tentative, non-binding, and subject to change after a full underwriting workup and company retention limits.

Requirements

XRAE tool requires the following fields:

- Agent name
- Client name
- Gender
- Date of birth
- Face amount
- Product type

Beyond the required fields above, the ability to provide details around the client’s medical and non-medical history will be available. Medical conditions offered will have impairment-based reflexive questions for “best case” underwriting classifications. The more information provided, the more complete the assessment.

Quotes Requiring Underwriter Review

If XRAE is unable to make a risk assessment, the following outcome will be presented to the agent:

- Additional Review Required – Click the Messaging link to request UW review

A manual submission of the quote will be required through the messaging tool in XRAE. These requests will be handled by Underwriting within 24 hours.

Please Note: Do NOT attach quotes to e-applications unless directed by Underwriting. XRAE saves all quotes and you can refer back to them at a later date if needed.

Informal Applications

Introduction

National Life Group is willing to consider informal/trial applications on a very limited basis, subject to the following parameters:

- Permanent products only.
- Minimum face amount: \$2,000,000
- Maximum age: 70
- Summary page required, including case design (product and face amount requested), rate needed to place, and outline of medical history. Financial documentation is required at the time of trial in order to be considered for review
- Time service: 10 business days
- Do not submit informal paperwork on cases that have been previously declined and/or multi-carrier shopped

Tentative offers good for 60 days.

Placement

- Informal applications as a percentage of submitted business: No more than 5%
- Informal-to-formal conversion rate: 50%
- Review will be done on a monthly, quarterly, and year-to-date basis
- We will consider alternative action with one quarter of data if parameters are not met. We will require, at the firm's expense, that they pay for APS summary service and they cannot submit full papers

Requirements

Requirements needed for an Informal Application are:

- New Business Checklist with Informal Application clearly indicated
- Form 8164 – HIPAA-compliant authorization or properly signed [HIPAA Compliant Authorization form](#) identifying National Life/LSW as an authorized carrier
- Client information: Name, date of birth, Social Security number
- Agent Information: Agent code, agency office code.
- [Form 1386](#) Informal Inquiry and Authorization

Important: No medical testing should be ordered or money collected.

Submit Forms to Home Office

Forms can be faxed or emailed to National Life Group as follows:

- Fax forms to 802-229-7592
- Email forms to NBApplicationImages@NationalLife.com

Important: Must be password protected if emailing

Foreign National Guidelines

Who is Considered a Foreign National?

National Life Group products are priced for the U.S. population. Our risk tolerance is measured based on the client's resident country and their permanency of residence in the U.S.

After-Issue Contract Changes

NL and LSW Life Insurance Products

Contract changes (after the rewrite period of 120 days from the application date) are considered “after issue” changes. These changes are processed in Contract Change – Inforce Customer Service.

Three forms unique to after-issue contract changes:

- Policy Change Application is used for contract changes
- Term Conversion Application
- Policy Change/Term Conversion Supplement to The Application is used anytime the after issue change or term conversion requires underwriting. *It should be noted that additional underwriting requirements may be needed at the underwriter's discretion.*

All changes should be submitted with a completed Customer Services Agency Transmittal (form 8042) via email to: ContractChange@NationalLife.com or Fax to 802-229-3131.

View the [After-Issue Contract Change Quick Reference Guide](#).
